Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the invention relates to conjugates consisting of two transition-metal compounds and a detectable compound (X) for labeling compounds such as proteins. The closest prior art of Kapanidis et al., J. Am. Chem. Soc. (2001), Vol. 123 No. 48, pages 12123-12125 discloses similar conjugates having only one transition-metal compound and a detectable compound instead of two transition-metal compounds and a detectable compound in the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
